"A mind is like a parachute. It doesn't work if it is not open." - Frank Zappa

Summary

With 18+ years of experience, I've evolved from a passionate Senior Software Engineer to a results-driven Engineering Manager. My expertise spans building complex web applications and leading high-performing teams. I thrive on creating impactful solutions, mentoring engineers, and driving strategic projects. My hands-on approach ensures technical excellence and fosters a collaborative environment, delivering significant value to the organization.

Work Experience

Circle Medical
Remote, USA

ENGINEER MANAGER — *Oct 2022 - Present*

- Led technical innovations and their implementation, facilitating Circle Medical's 200% year-on-year revenue growth. Expanded the engineering team from 5 to over 30 members in two years. Directed major projects such as the Secure Messaging System, a new Revenue Cycle Management Pipeline, Systems and Infrastructure observability, and the evolution of our current Cloud Infrastructure.
- My journey from a Senior Software Engineer to an Engineering Manager has been marked by collaboration, innovation and hiring.
